Toys management app.

September 2022 – December 2022

- The application allows users to manage their collection of toys by performing CRUD operations (Create, Read, Update, Delete) through a user-friendly interface.
- Utilized technologies such as React, NodeJS, Express, MongoDB. [\[Github\]](#)

Team Leader – Galmere fresh Foods

September 2018 – present

Despite not being able to apply my technical skills during my time at Galmere Fresh Food, I developed strong soft skills that are important in any job environment, including:

- Teamwork
- Communication
- Adaptability
- Problem-solving
- Independence

OBJECTIVE

As a Full stack Developer my objective is to work in a challenging environment that allows me to create and develop innovative solutions using best programming practices and to contribute towards the entire development lifecycle. I am interested in joining a team where I can use my technical guidance and leadership skills to provide high-quality deliverables.
